### World Book Day

Our children recently celebrated World Book Day in great style. They all made a huge effort and turned up as some wonderful book characters. Thank you to all those parents who had obviously supported their children and helped to put costumes together. Many children also purchased old books on the day and those proceeds will go towards our new school library.

### The New School Library

We have invested a great deal of money into stocking our school library with new and exciting books for all our children.

We also have a computer system which has scanned every book and will keep a record of all of the books which each child will take out.

The aim is to organise and run our library system very much like a public library system, whereby children can also take the library books home.

The staff have worked incredibly hard to organise the library and I know that the children are really looking forward to using it.

### World Cup Fund Raiser Day

Our World Cup Fund Raiser Day was a huge success, monies raised will go towards our school funds.

Scott Wildman and his team did a wonderful job of organising the event and ensuring that the children had an enjoyable, fun day. Many thanks for your sponsorships and support.

### Book Fayre

The Book Fayre was recently held and children had the opportunity to purchase books. This helped the school enormously as the more books that were purchased, the greater percentage of books they then provide the school for free. Once again, many thanks for your support.
